Why Use 360 Multi-rater Surveys?

Personal effectiveness in each key position is crucial to the ongoing success of any organization, especially when it comes to your leadership team. Our proven 360 surveys allow respondents to provide valuable confidential feedback regarding both the perception and effectiveness of another individual's performance. The results of our 360 surveys are often used to:

- enhance and develop key skills of each individual leader as needed
- help individuals prioritize a plan to make necessary adjustments
- assist leaders with specific skill-coaching when faster results are needed
- design targeted customized leadership team training for shared needs/skills
